Subject: revised English Language Skills Registration Standard for the nursing and midwifery professions

Dear Kathleen,

I think this is a huge help for international students for a number of reasons;

- international students pay heaps amount of fees just to finish a nursing degree in Australia such as visas, accommodation and tuition.
- international students already sat for an IELTS exam and achieving the required band score prior enrollment to an Australian University, and
- international graduating/finishing nursing students have already provided all the academic requirements for a nursing degree taught/assessed in english before applying for registration.

Respectfully,

Angel Denton G. Torio
