Subject: Regarding the Consultation of the English language skill Registration

Respected madam

I am Chaman suwal from Nepal. I am Nursing student from Tafe. As regards to your consultation, i have an issue that the students who have studied their schooling and high school in English language can easily practise the work of EN by communicating in English language. i think they won't have any problem regardig the english language to influence in the work. Therefore the change of these english language skill registration is not necessary for the students who have already studied their high school in English Medium.

your sincerly
chaman suwal.
